

Christmas Fest

Stallholders' Code of Conduct

As a Christmas Fest stallholder, you play a special role in our annual Christmas Fest celebration and we thank you for your participation and support. As part of our school community, we ask that you model our school's values of *Respect, Excellence, Resilience, Creativity and Honesty* whilst on our school grounds. It is the expectation of the school community that all adults and children model acceptable behaviour at all times within the school setting.

Bullying and harassment have no place within our community and as such will not be tolerated. All interactions between members of our community must be in keeping with our school values.

Refusal to act in a way that is conducive to continuing positive relations and in contravention of this Code of Conduct could result in the stallholder being refused a site or being asked to leave the school.

We trust that there is no situation which cannot be resolved if we participate with respect, honesty and a desire to provide the best experience for all involved.
